

VULNERABLE PERSONS REGISTRY

CHALLENGE

Emergencies can affect residents differently, making it difficult to identify those who may need additional assistance. Without reliable information available to the right teams, coordinating timely and equitable support becomes more challenging.

SOLUTION

SimplyCast's Vulnerable Persons Registry helps municipalities organize voluntary resident support information and connect it with emergency preparedness and community response activities. This gives authorized teams better access to relevant information when planning for and responding to emergencies.

PREPARE

- Clear view of community needs
- Organized resident information
- Better emergency preparedness
- Secure access for authorized teams

UNDERSTAND

- Identify support needs
- Recognize communication needs
- Understand accessibility requirements
- Improve situational awareness

CONNECT

- Coordinate municipal teams
- Engage residents, caregivers, and partners
- Strengthen response coordination

RECOVER

- Coordinate follow-up activities
- Maintain updated information
- Strengthen long-term resilience

SOLUTION BENEFITS

- Informed emergency planning
- Coordinated community support
- Personalized communication
- Stronger community resilience
