

Educational institutions must be prepared for a wide range of emergency and quick response scenarios. While written contingency plans may exist, they often lack a centralized way to launch alerts, gather information, and manage responses in real time. SimplyCast's Contingency Plan Communications solution transforms static plans into actionable, automated workflows that can be activated instantly from one central location.

Create Contingency Plans

Administrators build customized contingency plans that include tasks, communication steps, and response requirements for any scenario

Pre-Written Alerts

Alerts are prepared in advance and can be sent by email, SMS, or phone call, with the ability to customize messages during an active situation

Live Surveys & Responses

Surveys collect real-time responses from students and staff to identify who is affected and understand conditions on the ground

Centralized Dashboard

Once launched, each plan becomes a live dashboard showing alerts sent, survey responses, completed tasks, and ongoing activity

Confirmation & Tracking

Recipients can confirm receipt of alerts, helping administrators quickly identify who may need assistance

SMART EDUCATION: THE FUTURE OF LEARNING
